

Continuous Hanging System with Access Panel for New Gutters

The
smarter,
stronger
continuous
hanging
system

Rainwater drains into the gutter and away from your home

Continuous design reinforces the gutter

Gasket screws fasten and seal the gutter

WHAT IS THE LEAF RELIEF® CONTINUOUS HANGING SYSTEM?

Traditional hangers leave gaps that allow gutters to dent, crush and distort.

Adding hangers reduces damage, but then rainwater drains poorly.

The Continuous Hanging System reinforces the gutter from front to back and end to end while the perforations along the surface allow water to drain properly.

PEACE OF MIND THANKS TO LEAF RELIEF

The smarter, stronger hanging solution to keeping your gutters clear and protecting your home from water damage.

- Virtually eliminates maintenance
- Invisible from the ground
- Handles the heaviest rainfall
- Snow and pest resistant
- Keeps leaves and debris out of your gutters
- NEW Access Panel option

THE LEAF RELIEF® CONTINUOUS HANGING SYSTEM PREVENTS THESE COMMON GUTTER FAILURES

COMMON GUTTER PROBLEMS

OLD INSTALLATION TECHNIQUES: SPIKES OR HANGERS

Traditional gutter hangers leave weak spots and gaps between each spike or hanger. You end up with flimsy gutters prone to damage including warping, denting and water infiltration in the roof, fascia and foundation.

SOLUTION

TODAY'S INDUSTRY STANDARD: LEAF RELIEF® CONTINUOUS HANGING SYSTEM

The Continuous Hanging System strengthens the gutter from front to back and end to end. This reinforcement delivers unparalleled strength to protect your gutters year round.

- Keeps gutters clear of debris, allowing water to be safely carried away from your home.
- Continuous attachment system eliminates weak spots so your gutters stand up to ladder crush, heavy snow, ice and more.
- Blocks the sun to protect the sealant inside the gutter, which can crack and cause leaks.

PROTECTION AGAINST ICE EXPANSION

EXCEPTIONAL DURABILITY

SELF-SEALING SCREWS

NEW ACCESS PANEL slides open so that you can check your gutters.
